

## Website Development, Hosting, Support & Management

“If you build it they will come” quoted a popular movie. REJIS offers a variety of web services including development, hosting, and support. In addition, if REJIS has built and is hosting your agency’s website, you can now be assigned as the Managing Editor. Web Manager provides simple editing and uploading of web site content. Approved changes instantly appear on the website.

*REJIS is a local government agency created to “serve the public interest through delivering quality, cost-effective technology services to the justice community and to government and quasi-government agencies.” REJIS’ primary focus is to provide record management services to law enforcement, courts, and corrections agencies at the local, state and federal levels. This includes interfaces to the Missouri State Highway Patrol’s MULES system, the National Crime Information Center (NCIC), and the NLETS network. REJIS was founded in 1975 under a cooperative agreement between St. Louis County and the City of St. Louis. Our customers are primarily concentrated in the metropolitan St. Louis and southwestern Illinois areas.*

### REJIS services include:

- Development of custom applications
- Installation and support of custom and commercially available software
- Custom interfaces
- IT Support Service
- Data center outsourcing
- Network, training and help desk support.

*REJIS has approximately 140 employees located at three sites. Most of the staff and equipment is based at the REJIS building, in the Central West End of St. Louis.*

*For additional information on REJIS services, contact your REJIS Client Services Representative or the REJIS Help Desk (314-535-9497 or 1-888-923-7255).*

## Services

**Development:** REJIS will help you through the process of assessing your web site goals and requirements and then bringing them to fruition with an eye catching design, easy-to-navigate content, and convenient features for your web site visitors.

**Hosting:** REJIS provides a secure, stable environment for hosting your web site. Our offices are in your area; not a world away. Real people answer the phone and respond to your inquiries promptly.

If you already have a site and wish to move it to our facilities, we will evaluate your site requirements and determine if REJIS can provide the environment you need. We are able to support most popular development languages and technologies.

**Support:** REJIS developers can maintain your web site content per your instructions or set up your site using REJIS Web Manager which allows you to maintain your own content.

**Web Manager:** REJIS Web Manager, a content management system, allows you to maintain the content of your site at your convenience. Modules within Web Manager simplify calendar entries, news items, and subscription lists.

In most cases we can retrofit your existing site hosted on REJIS servers into Web Manager so you can begin enjoying its many features.

## Benefits & Features of Web Manager

- Offer subscription lists to visitors for notification of events such as Council meetings and distribution of newsletters
- Include your own photos and clip art on your pages
- Insert links to PDF documents you have created and added to the website
- Add links to other websites.
- Save modifications in a draft format prior to live viewing
- Use the built in security to share maintenance of selected pages with staff at your agency
- REJIS can handle all of your web services needs including web site maintenance or you can enjoy a savings by handling content maintenance yourself with Web Manager.
